Sir,

With reference to G.O.NO.E.3403-62/Edn. 231-22-8 dated 30th January 1924, entrusting the work of revising the "Mysore Gazetteer" to me, I have the honour to state that since the work commenced a great deal of work has been done in connection with it. The Progress Reports sent with my letters from month to month will show in detail the actual work done. I might state that nearly half the work is now finished and the balance well in hand. In view of this, I request Government will be pleased to sanction my drawing a moiety of the amount due to me as remuneration to meet my immediate expenditure. As the work is steadily progressing, I have every hope that Government will view sympathetically this request of mine.

I have the honour to be,
Sir,
Your most obedient servant,
C. Bravadasa Rao
Editor, "Mysore Gazetteer."

To

The Chief Secretary

to Government of Mysore,

B A N G A L O R E.

SIR,

With reference to your letter G.588/G.M-13-24-2 dated 22nd July 1924, I have the honour to invite the kind of attention of Government to my several Progress Reports submitted to Government, month after month. Apart from other necessary work, my business has consisted partly in drafting new chapters and partly in bringing up to date old drafts, which work has in most cases, meant rewriting them. Several chapters ^{falling} ~~coming~~ under both these categories have been typed and forwarded to Government and others will follow as the typing is got through. The drafting of other chapters is on hand and will be finished in due course. Work of this kind is not, I respectfully submit for the kind consideration of Government, to be measured by the - - matter actually submitted to Government within any particular period of time. Judged even by that test, Government will readily see from the general correspondence what has taken place, the Progress Reports submitted to Government and the drafts already submitted that the work actually done has been heavy within the short space of five months during which period I have been in active charge of the "Revision." The work of typing draft MSS. has been by no means light and as the printed drafts have had to be brought up to date, and in most cases rewritten, this part of the work has been rendered unusually heavy, in fact heavier than originally anticipated. Apart from the wording of the G.O. quoted in the letter under advertance, it cannot, I submit, be the intention of Government that I should draw nothing until the whole work is finished. I beg respectfully to add that
